## Job Application for Software Engineer

Dear Mr. Claudio Valerio Soldo,

## About Me

---

I consider myself a person hungry with curiosity. Lover of problem solving in innovation.

My goal is to give significant added value to the team through my ideas and knowledge.

I would like to join a team where I can learn and grow both as a person and as a career and i like to collaborate and celebrate when a goal is achieved.

I consider myself a person with a strong enthusiasm and propensity for TeamWorking, where in front of a problem you can face it together.

Among my greatest passions there is Coding and nature and family.

My goals for life in the workplace are to work in the field of technological and scientific innovation on a global scale. I like having an impact on people and the future.

I believe in spontaneity and being yourself.

Sincerely,

**Elia Tolin**
