Salvaterra, Italy

Dec. 2019 - Currently

Extracurricular Activity

Status Vaccini

FOUNDER AND CREATOR

Italy

Mar. 2021 - Dec. 2021

- Status Vaccini was the first platform in the form of an application for monitoring the Italian vaccination campaign. I wrote the platform without a profit background but only for the purpose of giving a tool to Italian citizens. The application was written entirely using the Flutter (Dart) framework. StatusVaccini has found a strong media interest in the national territory through television and journalistic platforms. The application has been removed from the stores.

Certification

Neural Networks and Deep Learning

PYTHON, ARTIFICIAL NEURAL NETWORK

Coursera

Nov. 2020

- At the rate of 5 hours a week, it takes roughly 5 weeks to finish each course in the Specialization.

Machine Vision

HALCON

Images

Set. 2021

- Introduction to computer vision: optics and lighting systems, image processing software, 3D technologies.
